PROFESSIONAL SUMMARY

Lead UI/UX Designer with 12+ years of experience creating user-friendly web and enterprise applications across healthcare and business domains. Skilled in UX research, wireframing, prototyping, usability testing, and responsive UI design. Experienced in turning complex requirements into simple, intuitive user experiences while working closely with developers and product teams to deliver practical design solutions.

KEY ACHIEVEMENTS

- Improved dashboard usability and data clarity, helping user's complete tasks faster and make quicker decisions.
 - Simplified user workflows, reducing task complexity and improving overall efficiency.
 - Created clickable prototypes that helped speed up stakeholder approvals and development.
 - Developed wireframes, mockups, and prototypes for Power BI applications and dashboards.
 - Improved collaboration by streamlining design handoff with developers.
 - Built reusable UI components using PrimeNG and Material Design for better consistency.
 - Used AI tools like Figma AI, UXMagic.AI, and Visily.AI to speed up early concepts and wireframes, later refining them into final designs.
 - Received **Most Valuable Performer (2024)** award for outstanding contribution and performance.
-

AREAS OF EXPERTISE

UI/UX Design

- User Research | Wireframing | Prototyping | Usability Testing | Interaction Design | Design Systems
Accessibility (WCAG 2.1) | Responsive Design.

Design Tools

- Figma
Components | Variants | Auto Layout | Constraints | Interactive Prototypes | Smart Animate
Overlays | Boolean Property | Instance Swap.
- Adobe XD
Artboards | Components | States | Repeat Grid | Responsive Resize | Auto-Animate | Interactive
Prototyping | Overlays | Scroll Groups | Asset Export | Shared Libraries.
- Adobe Photoshop
- Adobe Illustrator

- Balsamiq

Front-End Technologies

- HTML5
- CSS3
- Bootstrap 5
- Angular
- Material UI
- PrimeNG
- Responsive Web Design
- Media Queries

Project & Collaboration Tools

- Jira
- Azure DevOps
- Scrum

PROFESSIONAL EXPERIENCE

GeBBS Healthcare Solutions

Lead UI/UX Designer | Mar 2020 – Present | Navi Mumbai

- Worked on healthcare billing operations (RCM), healthcare analytics dashboards, and enterprise applications, delivering user-centered UX/UI solutions aligned with business and user needs.
- Converted business requirements into user flows, wireframes, and prototypes to simplify complex workflows into clear, user-friendly experiences for improved usability.
- Designed revenue cycle analytics dashboards in Figma and Adobe XD to improving data visibility and reducing information overload for the end users.
- Created high-fidelity UI designs aligned with accessibility and usability standards followed WCAG guidelines to ensure inclusive design and better accessibility compliance.
- Developed reusable UI components using PrimeNG and Material Design for consistency reduced design inconsistencies and accelerated development through standardized components.
- Collaborated closely with developers and product teams to ensure seamless implementation.
- Designed for Power BI applications, creating wireframes, high-fidelity mockups, and interactive prototypes to enhance data visualization and user experience.
- Conducted usability testing and iterated designs based on feedback identified user pain points and continuously improved the experience through data-driven decisions.
- Managed design workflows using Jira and Azure DevOps for task tracking, sprint planning, and cross-functional team communication.

Cheers Interactive (India) Pvt. Ltd.

Sr. UI Designer | Mar 2016 – Feb 2020 | Navi Mumbai

- Designed user interfaces and improved user experience for web applications focused on creating intuitive and visually consistent designs aligned with user expectations.
- Developed HTML prototypes to validate design concepts and improve usability enabled early-stage feedback and faster design iterations before development handoff.
- Enhanced UI performance and responsiveness using HTML5, CSS3 for seamless performance across multiple devices and screen sizes.
- Collaborated closely with developers and managers to ensure accurate design implementation and smooth project delivery
- Identified usability issues and implemented design improvements, applying practical solutions that reduced design rework and enhanced overall user satisfaction.
- Participated in design reviews and incorporated feedback to continuously improve UI quality and user experience.
- Built consistent layouts using Bootstrap and design guidelines to ensure uniform design standards and scalability across multiple projects.
- Created newsletter design templates to support consistent and engaging email communications.

IRIS Business Services Ltd.

UI Designer | Nov 2012 – Mar 2016 | Navi Mumbai

- Created wireframes, mockups, and interactive prototypes for web applications to help visualize user journeys and validate design concepts before development.
- Developed clean, standards-compliant HTML/CSS following W3C guidelines to ensure cross-browser compatibility and high-quality, maintainable code.
- Translated design concepts into functional front-end interfaces bridged the gap between design and development for accurate implementation.
- Worked on responsive layouts using Bootstrap and grid systems to deliver consistent user experiences across desktop, tablet, and mobile devices.
- Collaborated with teams to refine UI and improve product usability to continuously enhance the product.

EDUCATION

Bachelor of Computer Application (BCA) from Vinayaka Mission's Research Foundation University, completed in (2014-2015) with 68%.

CERTIFICATIONS

Web/UI Designing - Image Institute.

- Learned web design principles, layout design, typography, and visual design.
- Built a solid understanding of color theory, visual hierarchy, and design composition.
